Rome is the capital of Italy and a special comune. Rome also serves as the capital of the Lazio region. With 2,877,215 residents in 1,285 km<sup>2</sup> (496.1 sq mi), it is also the country's most populated commune. It is the fourth-most populous city in the European Union by population within city limits. It is the centre of the Metropolitan City of Rome, which has a population of 4.3 million residents. Rome is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of the Tiber. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states. Rome's history spans more than 2,500 years. While Roman mythology dates the founding of Rome at around 753 BC, the site has been inhabited for much longer, making it one of the oldest continuously occupied sites in Europe.

Let's explore the facets of Rome and experience the unique Italian culture!
